

Restorative Action Plans Training

Criteria for the Restorative Action Plan (RAP[©])

Restorative action plans take a problem-solving approach to discipline, replacing punitive measures with emotional learning opportunities. Restorative action plans incorporate the following three elements:

Agenda

1. **Restoration, restitution:** Explores strategies that encourages offenders to repair the harm they have caused to a victim and/or the community.
2. **Reintegration:** Actions taken to re-connect and re-engage offenders – those whose behavior have damaged or impaired relationships.
3. **Support and nurturing strategies:** Explore actions that help to strengthen connections to supportive persons and communities for the offender.

Course Objectives

1. Develop expertise in producing a Restorative Action Plan in a professional and timely manner.
2. Compare strategies for establishing solid, educated, empathic, and loving relationships with students.

Analyze restorative tools to establish systematic referral protocols when conflicts arise.
3. Create a standardized list of alternative disciplinary consequences based on RP principles to address unwanted behaviors.
